

Planned Primary PE and Sport Premium Report for 2017/18

The Primary PE and Sport Premium was launched by the government in April 2013. It is ring-fenced funding to be used by the school to improve the quality and breadth of our PE, sport and physical activity provision.

The national vision is for: *“All pupils leaving primary school [to be] physically literate and with the knowledge, skills and motivation necessary to equip them for a healthy lifestyle and lifelong participation in physical activity and sport.”*

In the academic year 2017/18, we will receive £8,900 (+ £1,084 carried forward)

The details below show how we will spend the Premium and what impact it will have on our pupils.

<i>How the money will be spent</i>	<i>Amount</i>	<i>Which pupils will particularly benefit</i>	<i>The difference we will make to pupils</i>
The impact on pupils' achievement in curriculum PE			
A specialist PE teacher provided PE sessions one afternoon per week to targeted classes (All classes will receive this provision over the year). This includes teacher participation when a CPD need is identified.	£3.847	All pupils	Good quality PE teaching will increase our participation in sports events as out 2016 – 17 (updated every July) shows and we expect the 2017 – 18 results table to further increase our participation. The change for life after school club will target individual pupils identified as not participating in sport.
The impact on pupils' participation and success in school sport (including competitive school sport)			
Membership fees for the Cleveland School Sports Partnership will allow access to inter school festivals and competitions.	£2. 100	KS2 pupils who don't take part in traditional team sports/ clubs	It is expected that the impact will be measured as the table for 2016 – 17 shows with increased uptake of sport. The table explains how the calculation is made. As a result of our sort participation we have been awarded our silver award by the sports partnership

The impact on pupils' engagement in healthy, active lifestyles			
Middlesbrough Football Club Foundation remain strong partners with Handale Primary School and will provide activities and classroom sessions one day a week from breakfast club through to an after school club focusing on adopting healthy lifestyles.	£5. 000	The pupil premium champion will monitor the take up of the after school sports sessions by pupils eligible for the pupil premium grant to ensure take up is in line with other pupils.	As pupils will be enthused to take up after schools sports. As part of our sports development we are seeking additional funding to provide a MUGA this will provide increased access to sports in all weathers for our pupils and the wider community under our community use policy.
As a result of the above, the impact on pupils' engagement and achievement in school as a whole			
Attitudes: Engaging more pupils in inter-school competition, and recognising a wider range of achievements in school assemblies and on the school newsletter and website, has increased some pupils' motivation in school generally as they feel more valued and proud of their success.			
Behaviours: Some pupils concentrate better in class in the afternoons as a result of being more active at break and lunchtimes; they have more energy for learning. This is evident in behaviour logs which have shown a drop in behavioural incidents.			
Skills: The number of pupils representing the school at county events such as swimming, cross country and athletics, although still small has risen. Pupils in all classes try very hard to improve in PE.
