## ENGLISH/SPaG

LC: To use an apostrophe for possession.

An apostrophe is used for contractions like we learnt last week but it can also be used to show possession.

Possession means when something belongs to someone.

The bag that belongs to the boy is red.

We would write this as:

**The boy's bag is red.**

The noun we are talking about is the bag. The person it belongs to is the boy.

Can you write the following names with an apostrophe?

e.g Sarah Sarah's

1. Joe
2. Paul
3. Emma
4. Kate
5. Tom

**Can you rewrite these sentences using the apostrophe for possession?**

e.g. *The loudest cheer at the match was by Sarah.*

*Sarah's cheer at the match was the loudest.*

1. The car on the drive belongs to Emma.
2. The cute puppy called Spot belongs to Tom.
3. The tallest cake at the show belonged to Joe.
4. The quietest baby at the park belonged to Kate.
5. The best goal of the season was scored by Paul.

## MATHS – Addition and Subtraction

Our learning this week will be practising adding and subtracting using column method.

Remember the rule...Each place can only have the **maximum of 9**, if we need to regroup, it then moves to the next column!

We always start our calculation in the **Ones** column.

Start at which level you feel comfortable then if you are getting them all correct, move up a level-challenge yourself!

*Make sure you think about your presentation!*

One number per square and USE A RULER

# THE TALE OF PETER RABBIT

by Beatrix Potter, adapted by Twinkl

Once upon a time there were four little Rabbits, and their names were Flopsy, Mopsy, Cottontail, and Peter. They lived with their Mother in a sand-bank, underneath the root of a very big fir-tree.

"Now, my dears," said old Mrs. Rabbit one morning, "you may go into the fields or down the lane, but don't go into Mr. McGregor's garden: your Father had an accident there; he was put in a pie by Mrs. McGregor."

"Now run along, and don't get into mischief. I am going out." Then old Mrs. Rabbit took a basket and her umbrella, and went through the wood to the baker's. She bought a loaf of brown bread and five currant buns.

Flopsy, Mopsy, and Cottontail, who were good little bunnies, went down the lane to gather blackberries; but Peter, who was very naughty, ran straight away to Mr. McGregor's garden, and squeezed under the gate! First he ate some lettuces and some French beans; and then he ate some radishes; and then, feeling rather sick, he went to look for some parsley. But round the end of a cucumber frame, whom should he meet but Mr. McGregor!

Dear Fay,

There was such a big delay when I went on holiday to Norway. My ticket was for Saturday but I had to wait until Sunday.

I checked the flight on the display and it said 'DELAYED' in big, red letters. I had to stay in the airport overnight so I lay across some chairs and played with my crayons.

Sway Airways felt bad for the delay and said I did not need to pay and I got a free tray of food on the way to Norway. Hooray!

Did you have a good birthday yesterday?

From Shay

## GEOGRAPHY –

From your previous learning, can you remember what the different parts of the volcano are called?

Can you name the main parts of this volcano?  
Can you explain how the grey layers were made?

Today we are going to look at where volcanoes are found. Although volcanoes are found all over the world, most are found here, all around the edges of the Pacific Ocean.

Most volcanoes are located in the red area, which is named "Ring of Fire".

Why do you think it is called that?

Watch the following video for more information:  
<https://www.youtube.com/watch?v=Vu6t3e4oqrE>

There are 3 types of volcanoes,

- Active
- Dormant
- Extinct

## What Do They Mean?

### **active**

A volcano that has erupted in the last 10 000 years.

### **dormant**

A volcano that hasn't erupted in the last 10 000 years, but may erupt again.

### **extinct**

A volcano that hasn't erupted in the last 10 000 years, and isn't expected to erupt again.

Would you like to live near a volcano?

Ask an adult to help you read the following cards and see if you can sort them into FOR (good idea) and AGAINST (bad idea).

FOR	AGAINST

Farming near a volcano can be really good, because the volcanic soil can produce very good crops.

Volcanic regions can produce geothermal energy, which is clean and renewable.

Minerals and rocks made from volcanic lava are mined and used for building materials, bringing jobs to the area.

People can be swept away by pyroclastic flows or lahars (mudflows).

Ash can destroy farm crops.

Volcanoes are tourist attractions bringing money and jobs to the area.

Ash can cause health problems for people and animals.

Frequent earthquakes can damage property.

Buildings can be destroyed by lava flow.

Scientists can predict when a volcano will erupt.

Dormant volcanoes may not erupt for hundreds of years.

The isolated slopes of volcanoes are good habitats for rare plants and animals.
