

Tuesday 12th January - Home Learning

Reception - Miss Stone

Good Morning Reception,

It has been lovely to hear from lots of you, I am very proud of how hard you are all working. Thank you to parents too for continuing your children's learning with them at home, I really appreciate it. Today is Tuesday 12th January. I wonder if you could do a calendar with your family and think about which day of the week it is, what the weather is like and which month we are in. This morning I have found a new exercise video for you all to complete, I know how much you all love doing morning exercises so I am sure you will enjoy this. This is the link for Andy's Wild Workouts - [BBC iPlayer - Andys Wild Workouts - Series 1: 1. Under the Sea](#)

Please remember I will do 2 drop-in zoom sessions a day, one at 10.30am and one at 2pm. You can ask any questions you wish to or show me some of your work. I will also read a story on an afternoon so feel free to drop in.

Phonics

In Phonics today, I would like you to watch this video to recap the phase 2 sounds. Please remember we need to recap every day, so we know them very well. Here is the link: https://youtu.be/700_N-ONG54

I would also like you to watch this video looking at some of our high frequency words: <https://youtu.be/dvw5erc1KmQ>

can you write some of them down after watching the video?

Today, we are starting Phase 3. We are going to learn the first phoneme in Phase 3 which is 'j' - Please watch the video to learn the phoneme:

<https://youtu.be/TIUU3nV1LjY>

After watching the video, I would like you to find as many things as you can beginning with 'j' around your house. I would then like you to try and write some words such as jam, jug and jet. After writing those words, try and tell someone in your family a sentence using one of the words you have wrote down.

I know lots of you wanted to watch Geraldine the Giraffe. I have attached the link here: [Geraldine the Giraffe learns the /j/ sound - YouTube](#)

Maths

For maths today I would like you to choose a number from 1-10 and I would like you to find that many objects in your house. I would then like you to write that number on a piece of paper. I am going to choose the number 6 and find 6 spoons. I am then going to do 6 jumps, 6 claps and 6 pats on the head. I wonder if you can choose an exercise to do with your number. I would then like you to talk about what number would be one more and what number would be one less than your number. Can you write those numbers too?

For an extra challenge I would like you to use your objects to make two groups. I chose the number 6 so I made 2 groups of 3 making 6 altogether. I wonder if you can make 2 groups and see how many you have altogether?

Activities

Here are some other activities for you to have a go at:

- Read a phonics book on oxford owl or you can read your own phonics book if you have one. Remember to keep practicing so you become fluent with reading. [Free eBook library | Oxford Owl from Oxford University Press.](#)
 - Practice forming the letter 'e'.
- Make some playdough with your family - I have attached the recipe here:

Playdough Recipe:

2 mugs of plain flour $\frac{1}{2}$ mug of salt Water (with food colouring if required) Put flour and salt into a bowl. Add water gradually stirring into the mixture with a spoon. When all water has been added use hands to mix until it forms a dough. If mixture is too sticky add more flour. If it is not forming a dough add more water. Once in a dough it is ready to play with. Store in an airtight box or bag (it will last up to a week).

I have also left the phonics play link here: username: jan21 and password: home.

You are all amazing, keep working hard.

Take Care, Miss Stone.
